

March 14, 2023

Dear Dr. Martin Luther King Jr, Early College families:

This April, all 9th, 10th and 11th grade students will participate in Colorado School Day PSAT/SAT testing. The PSAT and SAT focus on concepts and skills that matter for college and career readiness. They are designed to inform instruction and ultimately help improve student outcomes. The Colorado Department of Education requires at least 95% of our students take these assessments. Please be sure your student is in school and on time for the following assessments:

April 12, 2023

- All 9th Grade Students take the PSAT 9
- All 10th Grade Students take the PSAT 10
- All 11th Grade Students take the SAT
- All 12th Grade Students will be at school working on graduation checklist items
- All MS students will not have school
- All MS and HS students who are designated to a Center-Based Program such as MI,MI-S, MI-A will be on a regular schedule

These assessments are aligned to the Colorado Academic Standards and provide benefits including free, high-quality practice tools and scores that can be used for college and scholarship applications. The tests also help identify students who are falling behind so teachers can intervene, and they can provide indicators to students' readiness for advanced coursework and to keep them on target for college and career.

If you have any questions, please feel free to reach out to me. Thank you, and go Panthers!

Cristina Bissell, Principal
Dr. Martin Luther King Jr., Early College
Denver Public Schools
